Independent Auditor's Report

To the Board of Trustees
Township of Macomb
Macomb County, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Township of Macomb (the "Township") as of and for the year ended June 30, 2008, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Macomb's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Township of Macomb as of June 30, 2008 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis, budgetary comparison schedules, and pension system schedule of funding progress (as identified in the table of contents) are not required parts of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

To the Board of Trustees
Township of Macomb
Macomb County, Michigan

The accompanying other supplemental information, as identified in the table of contents, is not a required part of the basic financial statements. The other supplemental information is presented for the purpose of additional analysis. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Macomb's basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Township of Macomb

Management's Discussion and Analysis

Using this Annual Report

This annual report consists of a series of financial statements. The statement of net assets and the statement of activities provide information about the activities of the Township of Macomb (the "Township") on a government-wide basis. They are designed to present a longer-term view of the Township's finances. Fund financial statements follow the above-mentioned statements and illustrate how the services provided by the Township were financed in the short term, as well as what remains for future spending. Additionally, fund financial statements report the Township's operations in more detail than the government-wide financial statements.

In a condensed format, the table below shows the comparison of net assets (in millions of dollars) as of June 30, 2008 to the prior year:

TABLE I

	Governmental Activities		Business-type Activities		Total	
	2008	2007	2008	2007	2008	2007
Assets						
Current assets	\$ 48.1	\$ 43.0	\$ 46.0	\$ 46.0	\$ 94.1	\$ 89.0
Noncurrent assets:						
Restricted assets	1.8	4.4	2.6	5.9	4.4	10.3
Capital assets	<u>48.0</u>	<u>48.0</u>	<u>184.6</u>	<u>181.8</u>	<u>232.6</u>	<u>229.8</u>
Total assets	97.9	95.4	233.2	233.7	331.1	329.1
Liabilities						
Current liabilities	4.2	4.1	3.0	3.0	7.2	7.1
Long-term liabilities	<u>36.9</u>	<u>38.3</u>	<u>14.8</u>	<u>16.4</u>	<u>51.7</u>	<u>54.7</u>
Total liabilities	<u>41.1</u>	<u>42.4</u>	<u>17.8</u>	<u>19.4</u>	<u>58.9</u>	<u>61.8</u>
Net Assets						
Invested in capital assets -						
Net of related debt	11.8	13.1	171.0	170.0	182.8	183.1
Restricted	13.5	11.0	0.4	0.4	13.9	11.4
Unrestricted	<u>31.5</u>	<u>28.9</u>	<u>44.0</u>	<u>43.9</u>	<u>75.5</u>	<u>72.8</u>
Total net assets	<u>\$ 56.8</u>	<u>\$ 53.0</u>	<u>\$ 215.4</u>	<u>\$ 214.3</u>	<u>\$ 272.2</u>	<u>\$ 267.3</u>

The Township's combined net assets increased 1.8 percent from a year ago, increasing from \$267.3 million to \$272.2 million. A review of the governmental activities, separate from the business-type activities, shows an increase of approximately \$3.8 million in net assets, or 7.2 percent, during fiscal year 2008. The increase in total net assets is primarily attributable to an excess of revenues over controlled expenditures. The business-type activities experienced a 0.5 percent increase in net assets. This was primarily due to contributions of water and sewer lines by developers and a reduction in total liabilities.

Township of Macomb

Management's Discussion and Analysis (Continued)

Unrestricted net assets for the governmental activities were \$31.5 million at June 30, 2008. This amount represents the part of net assets that is available to finance day-to-day operations and future growth of the Township.

The following table shows the changes in net assets (in millions of dollars) as of June 30, 2008 and the prior year:

TABLE 2

Township of Macomb

Management's Discussion and Analysis (Continued)

Governmental Activities

The Township's total governmental revenues increased by approximately \$0.8 million from the last fiscal year. This was primarily attributed to the increase in property tax revenues. An increase in total governmental revenues was achieved despite declining license and permit fees throughout the year.

Expenses decreased by about \$3.1 million, or 14.2 percent, over the last fiscal year. This decrease resulted primarily from a \$3.4 million expense to fully fund the Retiree Health Care Fund that was contributed last fiscal year.

Business-type Activities

The Township's business-type activities are recorded in the Water and Sewer Fund. Revenues of the Township's business-type activities decreased 26.4 percent to \$20.9 million. Revenues of the Township's business-type activities decreased by \$7.5 million primarily as a result of the reduction of water and sewer lines contributed by developers during the year ended June 30, 2008.

Expenses increased 5.3 percent to \$19.8 million for the year ended June 30, 2008. The increase in expenses is primarily attributable to continued growth of the water and sewer system and increases in the cost of water and sewer purchases. The Township provides water, which is purchased from the City of Detroit water system, to nearly all its residents. The Township also provides sewage treatment to nearly all of its residents through the Macomb County sewage treatment plant.

The Township's Funds

Our analysis of the Township's major funds begins on pages 11 and 12, following the government-wide financial statements. The fund financial statements provide detailed information about the most significant funds, not the Township as a whole. The Township board creates funds to help manage money for specific purposes as well as show accountability for certain activities. The Township's major funds for 2008 include the General Fund, Parks and Recreation Operating Fund, Fire Operating Fund, Law Enforcement Sheriff Fund, Municipal Street Fund, Building Authority Debt Service Fund, and Building Authority Capital Projects Fund.

Township of Macomb

Management's Discussion and Analysis (Continued)

General Fund Budgetary Highlights

Over the course of the year, the Township administration and Township board monitor and amend the budget to take into account unanticipated events that occur during the year. Actual revenues exceeded budgeted revenues by 2.5 percent. Actual expenditures were 20.0 percent below budget, resulting in a carryforward of funds for subsequent year expenditures. The Township completed the year with an increase in total revenue over the budgeted amount of \$0.2 million and a decrease of total expenses over the budgeted amount of \$1.9 million.

Capital Assets and Debt Administration

At the end of fiscal year 2008, the Township had \$232.6 million invested in a wide range of capital assets, including land, buildings, fire equipment, computer equipment, and water and sewer lines. In addition, the Township is reporting infrastructure assets, which include roads and bridges in which it has invested since 1980. The value of the infrastructure assets, net of depreciation contained in this report, is \$3.8 million and \$4.0 million for fiscal years 2008 and 2007, respectively (see Note 3 of the notes to financial statements for additional information). Additionally, the value of buildings and improvements, net of depreciation, for the governmental activities is \$38.6 million and \$30.5 million for fiscal years 2008 and 2007, respectively.

Debt reported in these financial statements is related to the construction of the above-mentioned buildings and improvements assets and is reported as a liability on the statement of net assets (see Note 5 of the notes to financial statements for additional information).

Economic Factors and Next Year's Budgets and Rates

Macomb Township's 2008 tax rate stayed consistent with the 2007 tax rate. Strong expenditure controls and past growth in the Township's tax base have helped to accomplish keeping the tax rates low. Property taxes make up nearly 19.6 percent of the General Fund budget. Annual new growth and development in the Township has fallen 46.7 percent in the past year and is expected to remain stable for the next few years. In addition, state revenue sharing, which represents nearly 36.7 percent of the General Fund budget, is unlikely to increase due to state cutbacks and less sales tax receipts at the state level.

On the expense side, the Township continues to operate with relatively low personnel costs and an efficient labor force. While our pension system is 81.3 percent funded, we do anticipate further increases in pension fund contributions due to a declining stock and bond market. We also expect continued annual increases in medical costs of nearly 7 percent to 9 percent per year. Despite these increased costs, our expense increases are anticipated to average between 4 percent and 8 percent per year. We will adjust expenses to mirror the revenue base, ensuring the continuation of the trend of excess of revenues over expenses established over 10 years ago.

Township of Macomb

Management's Discussion and Analysis (Continued)

Contacting the Township's Management

This financial report is intended to provide our citizens, taxpayers, customers, and investors with a general overview of the Township's finances and to show the Township's accountability for the money it receives. If you have any questions about this report or need additional information, we invite you to contact the Macomb Township finance office.

Township of Macomb

Governmental Funds Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2008

Net Change in Fund Balances - Total Governmental Funds **\$ 2,831,744**

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures;
in the statement of activities, these costs are allocated
over their estimated useful lives as depreciation 68,800

Revenue is reported in the statement of activities at the time
it is earned, without regard to timeliness of collection 35,479

Repayment of bond principal is an expenditure in the
governmental funds, but not in the statement of activities
(where it reduces long-term debt) 1,280,000

Interest related to outstanding debt is accrued when incurred
on the statement of activities, but not on the governmental
fund report (402,891)

Accumulated employee sick and vacation pay is recorded
when earned in the statement of activities (46,177)

Change in Net Assets of Governmental Activities **\$ 3,766,955**

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Township of Macomb (the "Township") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Township of Macomb:

Reporting Entity

The Township of Macomb is governed by an elected seven-member board of trustees. The accompanying financial statements present the Township and its component units, entities for which the Township is considered to be financially accountable. Although blended component units are legal separate entities, in substance, they are part of the Township's operations. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the Township (see discussion below for description).

Blended Component Units - The following component units are reported as if they were parts of the primary government in the financial statements.

- a. The fire retirement system has been blended into the Township's financial statements. The system is governed by a five-member pension board that includes the Macomb Township treasurer, two individuals chosen by the Township's board, and two elected fire department members. The system is reported as if it were part of the primary government because of the fiduciary responsibility that the Township retains relative to the operations of the retirement system.
- b. The Macomb Township Building Authority is governed by a three-member board that is appointed by the Township's board of trustees. Although it is legally separate from the Township, it is reported as if it were part of the primary government because its primary purpose is to provide certain facilities necessary for the operation of the Township's government and to finance and construct the Township's public buildings.

Note 1 - Summary of Significant Accounting Policies (Continued)

Discretely Presented Component Unit - The Economic Development Corporation is reported within the component unit column in the combined financial statements. The Economic Development Corporation was created to provide means and methods for the encouragement and assistance of industrial and commercial enterprises in relocating, purchasing, constructing, improving, or expanding within the Township so as to provide needed services and facilities of such enterprises to the residents of the Township. The Corporation's governing body, which consists of eight individuals, is selected by the Township board. The component unit does not issue its own financial statements.

Jointly Governed Organization - The Township, in conjunction with Clinton Township, has created the Clinton Macomb District Library (the "Library"). The Library's board is composed of three members appointed by Clinton Township's board of trustees and three members appointed by Macomb Township's board of trustees. The Library is funded through property taxes, specifically through a separate property tax millage that is not recorded as revenue by Macomb Township. The Library currently does not receive a subsidy from the Township. The financial statements for the Library can be obtained from the Library's administrative office at 43245 Garfield Rd., Clinton Township, MI. The Township is unaware of any circumstance that would cause an additional benefit or burden to the participating governments of the above joint venture in the near future.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from a legally separate component unit for which the primary government is financially accountable.

Note 1 - Summary of Significant Accounting Policies (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and the major individual Enterprise Fund are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the full accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

Note 1 - Summary of Significant Accounting Policies (Continued)

Property taxes, state-shared revenue, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. Only the portion of special assessments due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be available only when cash is received by the Township.

The Township reports the following major governmental funds:

General Fund - The General Fund is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Parks and Recreation Operating Fund - The Parks and Recreation Operating Fund accounts for the activities of the parks and recreation department and all resources used for the purpose of providing this service.

Fire Operating Fund - The Fire Operating Fund accounts for all of the activities of the Township's fire department, except for the purchase of equipment.

Law Enforcement Sheriff Fund - The Law Enforcement Sheriff Fund accounts for the police activities of the Township.

Building Authority Debt Service Fund - The Building Authority Debt Service Fund accounts for all debt payments made related to construction activities for new Township facilities.

Building Authority Capital Projects Fund - The Building Authority Fund (a Capital Projects Fund type) accounts for construction activities for new Township facilities.

Municipal Street Fund - The Municipal Street Fund accounts for reimbursements made to the county for street projects performed by the county on behalf of the Township.

The Township reports the following major proprietary fund:

Water and Sewer Fund - The Water and Sewer Fund accounts for the activities of the water distribution system and sewage collection system.

Note 1 - Summary of Significant Accounting Policies (Continued)

Additionally, the Township reports the following funds:

Pension Trust Fund and Retiree Medical Benefit Fund - The Pension Trust Fund and the Retiree Medical Benefit Fund account for the activities of the fire employees' retirement system, which accumulates resources for pension benefit payments to qualified fire employees and for medical benefits provided to employees during retirement, respectively.

Agency Funds - The Agency Funds are used to account for assets held by the Township in a trustee capacity or as an agent for individuals, organizations, other governments, or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

Private sector standards of accounting issued prior to December 1, 1989 are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The Township has elected not to follow private sector standards issued after November 30, 1989 for its business-type activity.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Township's water and sewer function and various other functions of the Township. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. The principal operating revenue of the proprietary fund relates to charges to customers for sales and services. The Water and Sewer Fund also recognizes the portion of tap fees intended to recover current costs (e.g., labor and materials to hook up new customers) as operating revenue. The portion intended to recover the cost of the infrastructure is recognized as nonoperating revenue. Operating expenses for the proprietary fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Assets, Liabilities, and Net Assets or Equity

Cash and Investments - Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Note 1 - Summary of Significant Accounting Policies (Continued)

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown as net of allowance for uncollectible amounts. Property taxes are levied on each December 1 on the taxable valuation of property as of the preceding December 31. Taxes are considered delinquent on March 1 of the following year, at which time penalties and interest are assessed.

The 2007 taxable valuation of the Township totaled \$3,314,946,735, on which ad valorem taxes levied consisted of 0.6757 mills for the Township's operating purposes, 1.25 mills for fire operating purposes, 0.0418 mills for fire pension, 0.8702 mills for police protection, and 0.8232 mills for parks and recreation. The ad valorem taxes raised \$2,079,753 for general operations, \$4,037,773 for fire operations, \$138,783 for fire pension, \$2,893,246 for police protection, and \$2,736,971 for parks and recreation. The Fire Pension Fund's tax revenue is recorded as an employer contribution to the pension system. The remaining amounts are recorded in their respective funds as tax revenue.

Inventories and Prepaid Costs - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets - The bonds of the Enterprise Fund and the governmental funds require amounts to be set aside for construction, debt service principal and interest, operations and maintenance, and a bond reserve. These amounts have been classified as restricted assets. Also, the Township has restricted assets for unspent bond proceeds.

Note 1 - Summary of Significant Accounting Policies (Continued)

Capital Assets - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., amounts paid to the Road Commission for the intangible right to use the roads) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the Township as assets with an initial individual cost of more than \$500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Roads and bridges	25 years
Water and sewer mains	50-70 years
Water meters	50 years
Buildings and building improvements	40 years
Vehicles	5 years
Office furnishings	7 years
Other tools and equipment	5-7 years

Compensated Absences - The Township allows employees to accumulate earned but unused sick and vacation pay benefits. The government-wide and proprietary statements accrue all vacation and personal pay as it is earned, and sick pay as it is used or vested (whichever is earlier). A liability for these amounts is reported in governmental funds as it comes due for payment (when the time is taken off, or employees terminate).

Long-term Obligations - In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as expenditures.

Township of Macomb

Notes to Financial Statements June 30, 2008

Note 1 - Summary of Significant Accounting Policies (Continued)

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Construction Code Act - The Township tracks the results of building department operation in the General Fund in accordance with Michigan Public Act 245 of 1999. The Township is required to maintain an accounting system that separately accumulates revenues and expenditures related to the building department function. As required under the provision of the Act, the Township adopted this accounting treatment effective January 1, 2000. A summary of the activity since January 1, 2000 is as follows:

Cumulative expenditures over revenue - July 1, 2007		\$ (2,945,545)
2007-2008 building department activity:		
Permit revenue	\$ 860,961	
Expenditures	<u>(1,847,815)</u>	
Net shortfall for the year ended June 30, 2008		<u>(986,854)</u>
Cumulative expenditures over revenue - June 30, 2008		<u><u>\$ (3,932,399)</u></u>

Note 2 - Deposits and Investments

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The Pension Trust Fund and Retiree Health Care Fund are also authorized by Michigan Public Act 314 of 1965, as amended, to invest in certain reverse repurchase agreements, stocks, diversified investment companies, annuity investment contracts, real estate leased to public entities, mortgages, real estate (if the trust fund's assets exceed \$250 million), debt or equity of certain small businesses, certain state and local government obligations, and certain other specified investment vehicles.

The Township has designated 17 banks for the deposit of its funds. The investment policy adopted by the board has authorized investments in accordance with Public Act 196 of 1997. The Township's deposits are in accordance with statutory requirements.

The Township's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. The Township does not have a deposit policy for custodial credit risk. At year end, the Township had \$101,682,631 of bank deposits (certificates of deposit, checking, and savings accounts) that were uninsured and uncollateralized. The Township believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Township evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Township of Macomb

Notes to Financial Statements June 30, 2008

Note 2 - Deposits and Investments (Continued)

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Township does not have a policy for custodial credit risk. At year end, the following investment securities were uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the Township's name:

Type of Investment	Fair Value of Township-wide Deposits and Investments	Fair Value of Pension Trust and Retiree Healthcare Funds	How Held
Negotiable certificates of deposits	\$ 2,033,177	\$ -	Counterparty
U.S. Treasury bonds	-	155,142	Counterparty
Agency bonds	-	341,412	Counterparty
Equities (pension)	-	1,384,206	Counterparty
Corporate bonds (pension)	-	224,101	Counterparty

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Township's investment policy does not restrict investment maturities, other than commercial paper which can only be purchased with a 270-day maturity. At year end, the average maturities of investments are as follows:

Investment	Fair Value of Township-wide Deposits and Investments	Fair Value of Pension Trust and Retiree Healthcare Funds	Weighted Average Maturity (Years)
U.S. Treasury bonds	\$ -	\$ 155,142	3.80
Agency bonds	-	341,412	18.72

Township of Macomb

Notes to Financial Statements June 30, 2008

Note 2 - Deposits and Investments (Continued)

Credit Risk - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Township has no investment policy that would further limit its investment choices. As of year end, the credit quality ratings of debt securities (other than the U.S. government) are as follows:

Investment	Fair Value	Rating	Rating Organization
Bank investment pool	\$ 9,134,860	AAA	Moody's/Standard & Poor's
Agency bonds	341,412	AAA	Standard & Poor's

Note 3 - Capital Assets

Capital asset activity of the Township's governmental and business-type activities was as follows:

	Balance July 1, 2007	Additions	Disposals and Adjustments	Balance June 30, 2008
Governmental Activities				
Capital assets not being depreciated:

Note 4 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

Receivable Fund	Payable Fund	Amount
Due to/from Other Funds		
General Fund	Nonmajor governmental funds	\$ 52,623
General Fund	Building Authority Construction	154,685
General Fund	Building Authority Debt	888
General Fund	Fire Operations	453
Law Enforcement Fund	General Fund	3,491
Parks and Recreation Operating Fund	General Fund	3,671
Municipal Street	General Fund	24,669
Total		<u>\$ 240,480</u>

Interfund balances represent routine and temporary cash flow assistance until funds are transferred from investment accounts.

Interfund Transfers Reported in the Fund Statements

Fund Transferred From	Fund Transferred To	Amount
General Fund	Building Authority Debt Service Fund	\$ 530,300
General Fund	Law Enforcement	80,000
Fire Operating Fund	Nonmajor governmental funds	900,000
Nonmajor governmental funds	Building Authority Debt Service Fund	612,730
Parks and Recreation Operating Fund	Building Authority Debt Service Fund	1,730,550
Parks and Recreation Operating Fund	Nonmajor governmental funds	326,430
Building Authority Construction	Building Authority Debt Service Fund	907,741
Nonmajor governmental funds	General Fund	198,972
Total		<u>\$ 5,286,723</u>

Interfund transfers provided funding for operating assistance, capital projects, capital acquisitions, and debt service.

Township of Macomb

Notes to Financial Statements June 30, 2008

Note 5 - Long-term Debt

The Township issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the Township. Installment purchase agreements are also general obligations of the government. Special assessment bonds provide for capital improvements that benefit specific properties and will be repaid from amounts levied against those properties benefited from the construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the Township is obligated to provide resources to cover the deficiency until other resources (such as tax sale proceeds or a re-assessment of the Township) are received. Revenue bonds involve a pledge of specific income derived from the acquired or constructed assets to pay debt service.

Long-term obligation activity can be summarized as follows:

	Interest Rate Ranges	Principal Maturity Ranges	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities							
General obligation bonds:							
2000 Building Authority Bonds:							
Amount of issue - \$7,800,000	5.20% -						
Maturing through 2010	8.00%	\$200,000	\$ 600,000	\$ -	\$ 200,000	\$ 400,000	\$ 200,000

Township of Macomb

Notes to Financial Statements June 30, 2008

Note 5 - Long-term Debt (Continued)

Future Revenues Pledged for Debt Payment - The Township has pledged revenue of the Water and Sewer Fund, net of operating expenses, to repay the above water and sewer revenue bonds. Proceeds from the bonds provided financing for the construction of various water mains. The bonds are payable solely from the net revenues of the water and sewer system. The remaining principal and interest to be paid on the bonds is \$1,621,607. During the current year, net revenues of the system were a loss of \$4,437,033 compared to the annual debt requirements of \$310,000.

Note 6 - Restricted Assets

Specific assets of the Water and Sewer Fund and the Building Authority Capital Projects Fund have been restricted for operations and maintenance, replacement, and debt service as well as unspent bond proceeds. Following is the detail of restricted assets at June 30, 2008:

Water and Sewer Fund:

Restricted assets from bond covenants:

Cash and cash equivalents	\$ 586,006
Less current liabilities payable from restricted assets	<u>(177,500)</u>

Total restricted assets from bond covenants	408,506
---	---------

Cash and cash equivalents from unspent bond proceeds	<u>1,993,708</u>
--	------------------

Total Water and Sewer Fund	2,402,214
----------------------------	-----------

Building Authority Capital Projects Fund - Restricted assets, unspent bond proceeds	<u>1,800,081</u>
---	------------------

Total	<u><u>\$ 4,202,295</u></u>
-------	----------------------------

Net assets have been reserved for restricted assets.

Note 7 - Risk Management

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The Township has purchased commercial insurance for specific property, such as vehicles, computers, and employee medical claims. The Township also participates in the Michigan Municipal League risk pool for claims relating to all other property losses, torts, errors and omissions, and employee injuries. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The Michigan Municipal League risk pool program operates as a common risk-sharing management program for local units of government in Michigan. Member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

Note 8 - Defined Benefit Pension Plan

Plan Description - The Township contributes to the fire retirement system, which is the administrator of a single-employer public employees' retirement system that covers all full-time fire fighters of the Township. The plan does not issue a separate financial report.

The system provides retirement, death, and disability benefits to plan members and their beneficiaries. At June 30, 2008, membership consisted of two retirees and beneficiaries currently receiving benefits and one terminated employee entitled to benefits but not yet receiving them, and nine current active employees.

Contributions - Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Please refer to Note 1 for further significant accounting policies.

The obligation to contribute to and maintain the system for these employees was established by a vote of the taxpayers in 1988 and requires a contribution from the employees of 5 percent of gross wages. The funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are intended to accumulate sufficient assets to pay benefits when due. Administrative costs of the plan are financed through investment earnings.

Note 8 - Defined Benefit Pension Plan (Continued)

Annual Pension Costs - For the year ended June 30, 2008, the Township's annual pension cost is \$138,783, which was equal to the actual and required contributions. The annual required contribution was determined as part of an actuarial valuation at June 30, 2008, using the entry age actuarial funding method. Significant actuarial assumptions used include (i) a 7.0 percent investment rate of return, (ii) projected salary increases of 5.0 percent per year, (iii) additional projected salary increases ranging from 0.2 percent to 3.8 percent per year, attributable to seniority/merit and age, and (iv) no postretirement benefit increases. Assumption (ii) includes an inflation component of 5 percent. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a four-year period. The unfunded actuarial liability is being amortized as a level percent of payroll on a closed basis. The remaining amortization period is 13 years.

As of June 30, 2008, the most recent actuarial valuation date, the plan was 81.3 percent funded. The actuarial accrued liability for benefits was \$1.9 million, and the actuarial value of assets was \$1.5 million, resulting in an unfunded actuarial accrued liability of approximately \$350,000. The covered payroll (annual payroll of active employees covered by the plan) was \$637,673, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 55.0 percent.

The schedule of funding progress, presented as required supplemental information following the notes to the financial statements, presents multiyear trend information about the actuarial accrued liability for benefits.

Three-year Trend Information of Annual Pension Cost

	2008	2007	2006
Annual pension costs (APC)	\$ 138,783	\$ 153,302	\$ 82,777
Percentage of annual required contribution actually contributed	100%	100%	100%
Net pension obligation	\$ -	\$ -	\$ -

Reserves

As of June 30, 2008, the plan's legally required reserves have been fully funded as follows:

Reserve for employees' contribution	\$ 211,280
Reserve for retired benefit payments	187,661

Note 9 - Other Postemployment Benefits

Plan Description - The Township provides retiree healthcare benefits to all full-time employees upon retirement in accordance with labor contracts. Currently, the plan has 18 retirees that are eligible for postemployment health benefits. The Township includes pre-Medicare retirees and their dependents in its insured healthcare plan, with no contribution recognized by the participant.

This is a single employer defined benefit plan administered by the Township. The benefits are provided under collective bargaining. The plan does not issue a separate stand-alone financial statement. Administrative costs are paid by the plan through employer contributions.

Funding Policy - In the current year, the Township paid postemployment healthcare costs of \$302,300.

The funding progress of the plan as of the most recent valuation date is as follows:

Actuarial value of assets	\$ 6,455,955
Actuarial accrued liability (AAL)	8,850,729
Unfunded AAL (UAAL)	2,394,774
Funded ratio	73%
Annual covered payroll	4,193,152
Ratio of UAAL to covered payroll	57%

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Note 9 - Other Postemployment Benefits (Continued)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2008 actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 7.5 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare inflation rate of 5 percent. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis over 30 years.

The following are condensed financial statements for the retirement system and the Retiree Health Care Fund:

	Pension and Other Retirement Benefit Funds		
	Retirement System	Retiree Health Care	Total
Statement of Net Assets			
Cash and investments	\$ 1,527,639	\$ 6,455,955	\$ 7,983,594
Liabilities	<u>529</u>	<u>-</u>	<u>529</u>

Other decreases	<u>(1,469)</u>	<u>(295)</u>	<u>(1,764)</u>
Changes in net assets	<u><u>\$ (2,007)</u></u>	<u><u>\$ 142,427</u></u>	<u><u>\$ 140,420</u></u>

Note 9 - Other Postemployment Benefits (Continued)

Upcoming Reporting Change

The Governmental Accounting Standards Board has recently released Statement No. 45, *Accounting and Reporting by Employers for Postemployment Benefits Other Than Pensions*. The new pronouncement provides guidance for local units of government in recognizing the cost of retiree health care, as well as any other postemployment benefits (other than pensions). The new rules will cause the government-wide financial statements to recognize the cost of providing retiree healthcare coverage over the working life of the employee, rather than at the time the healthcare premiums are paid. The new pronouncement is effective for the year ending June 30, 2009.

Note to Required Supplemental Information June 30, 2008

Note - Stewardship, Compliance, and Accountability

Budgetary Information - Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General Fund and all Special Revenue Funds. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund, function, department, and line items. The legal level of budgetary control adopted by the governing body is the department level.

Encumbrances are not included as expenditures. The amount of encumbrances outstanding at June 30, 2008 has not been calculated. During the current year, the budget was amended in a legally permissible manner. The budget has been prepared in accordance with accounting principles generally accepted in the United States of America.

The supervisor presents the preliminary budget to the board of trustees in May and the final budget is legally adopted at the last board meeting in June to commence on the first of July.

December 4, 2008

To the Board of Trustees
Township of Macomb
54111 Broughton Rd.
Macomb Township, MI 48042

We have recently completed our audit of the basic financial statements of the Township of Macomb (the "Township") for the year ended June 30, 2008. In addition to our audit report, we are providing the following letter of the internal control items and other matters, results of the audit, and summary of unrecorded possible adjustments which impact the Township:

	<u>Page</u>
Internal Control Items and Other Matters - SAS 112	2-7
Results of the Audit - SAS 114	8-11
Summary of Unrecorded Possible Adjustments	12

This communication is intended solely for the information and use of management and the board of trustees and is not intended to be and should not be used by anyone other than these specified parties.

We are grateful for the opportunity to be of service to the Township of Macomb. Should you have any questions regarding the comments in this report, please do not hesitate to call.

Very truly yours,

Plante & Moran, PLLC

Mark R. Hurst

Internal Control Items and Other Matters - SAS 112

December 4, 2008

To the Board of Trustees
Township of Macomb

In planning and performing our audit of the financial statements of the Township of Macomb (the "Township") as of and for the year ended June 30, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Township's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We believe that the following constitute significant deficiencies:

Segregation of Duties

The finance department prepares and adjusts most of the bank and investment reconciliations. This is considered to impair the segregation of duties because those responsible for preparing bank reconciliations are also responsible for recording journal entries and processing cash disbursements. We recommend that cash and investment reconciliations be performed by those individuals who are isolated from those functions.

Master data files related to payroll can be modified by the payroll clerk. We recommend that this access be removed from the payroll clerk and that access to the master data be modifiable by the personnel department or another individual who is independent from the accounting department.

Water and Sewer Inventory

The inventory that is held by the Water and Sewer Fund is valued at historical cost, which is not in accordance with accounting principles generally accepted in the United States of America. The Water and Sewer Fund should value the inventory at lower of cost or market. Due to the total value of inventory at year end and the inventory transactions that occur throughout the year, any adjustment required to record inventory at lower of cost or market would be immaterial to the financial statements as a whole.

Informational/Legislative Comments

We consider the following items to be informational updates to assist management. Please call us to discuss any items further.

Arbitrage

At June 30, 2008, the Township had an insignificant amount of unspent bond proceeds. No arbitrage calculation was performed by management. Though it is not likely that an arbitrage liability exists at June 30, 2008, the calculation should still be performed by management every year there are unspent bond proceeds to verify this fact.

Cash Deposits

Due to the size of the Township's investments, many deposits are above the FDIC insurance threshold. We recommend that the Township continue to monitor the financial stability of the financial institutions with which it chooses to deposit its funds.

Postretirement Benefit Investments

The Township invests a substantial amount of its postretirement benefit investments in certificates of deposit. We recommend that the Township consider investing these funds in a long-term investment with a higher projected yield as these funds are set aside to pay for future, not current, healthcare costs.

Treasurer's Report on Investments

A new law was passed in December 2007 for reporting on investments to the Township Council. The treasurer is now required to report on investments at least quarterly. While the law prescribes no minimum information requirements, we feel that the report should include a list of investments with the financial institution each is issued through, the amount, and perhaps the stated interest rate.

Information Technology

After review of the information technology (IT) general controls self-assessment completed by the Township, we have the following recommendations:

1. New User Access

The Township does not have a formal process for establishing new user access. IT generally restricts user access for new hires and then access is applied as necessary through requests from the department head. Documentation of this action is not retained. Management should consider formalizing the process with a paper or electronic new user access form, initiated by human resources (HR) or the supervisor that documents the user's name, department, access required, and start date. IT should document the access granted. The forms should be retained for the duration of the user's employment.

2. Access Termination

IT is notified of terminations via an informal process to remove or disable access. Documentation of this action is not retained.

Management should consider formalizing the process with a termination form that documents the terminated user's name and termination date. The forms should be retained by IT or HR for the duration of the audit. In addition, IT should be confirming the last login date/time when account access is removed for terminated employees and verifying, through the event log, that no actions have taken place either prior to or immediately following their termination.

For key accounting and operational staff, transaction level logging should be enabled prior to and immediately after the termination date. The transactions of the user should be reviewed by supervisor or HR to ensure that unauthorized activity is detected and reviewed at termination.

3. Access Changes

Currently, IT is notified of employee job changes verbally; IT changes user access when requested by the department head. Documentation of this action is not retained.

Management should consider establishing a formal process through a paper or electronic form that documents access changes and necessary approvals. The forms should be retained by IT or HR for the duration of the user's employment. A formalized process will ensure that the employee's access is commensurate with the employee's job function and does not allow for conflicting access.

4. User Access Review

User access reviews are not being conducted by the Township.

Management should implement a process to review user access at least annually. This is best achieved when the review is performed by someone other than IT (as they administer access). Access reports should be provided by IT to each supervisor or HR for review of access. Any exceptions should be clearly documented with IT remediation and retained for the duration of the audit.

5. Information Security Program

The Township does not have an information security program for users or third parties accessing the network to sign and acknowledge that they understand the program or similar confidentiality agreement.

Management should consider creating an information systems usage policy to communicate the policies and procedures that end-users need to follow and adhere to when using the Township's information systems.

Management should include policies regarding virus update, physical security, logical security, password policies, incident response, disposal of hardware/software, and privacy or customer personal data in their information security program. A robust information security program allows for proper use of the organization's IT resources. In addition, all users and third parties with access to the network should be required to sign and acknowledge that they have read and understand the program. This acknowledgement should be signed annually and retained in the employee's personnel file.

6. Backup Procedures

During our review, we noted that backup tapes are not rotated to an off-site location daily. Management should consider implementing a policy to rotate backup tapes to an off-site location daily. The off-site location should be at least five miles away (the Township's location is three miles away; this is likely sufficient) to protect the tapes from a disaster at the primary location. The tapes should be clearly marked as to date/version and off-site tapes rotation clearly documented to show which tapes are at the off-site location.

7. Environmental Controls

During our review, we noted that the Township does not have all the recommended environmental controls in place to protect equipment in the computer room.

Environmental controls should be put in place to maintain normal/efficient processing of servers and network devices, including:

- Smoke detectors in the computer room
- Fire suppression devices to fight fires
- Servers should be protected from water damage by either a raised floor or by placing servers on racks above floor level. Additionally, water sensors could be placed in the computer room to further protect this equipment.

New Auditing Standards

The Township was required to implement the new auditing standards, SAS 109-112, in this fiscal year. These standards required a significant amount of work for the finance department, which included documenting additional internal controls and preparing for the additional audit procedures. We would like to take this opportunity to thank Stacy VanReyendam and her department for all their hard work implementing these auditing standards.

This communication is intended solely for the information and use of management and the board of trustees and is not intended to be and should not be used by anyone other than these specified parties.

To the Board of Trustees
Township of Macomb

December 4, 2008

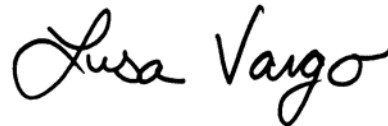

We would like to thank the board for the opportunity to serve as auditors for the Township. We would also like to express our appreciation for the courtesy and cooperation extended to us by the Township's administration during the audit. If you would like to discuss any of these matters, or would like assistance in their implementation, please contact us.

Very truly yours,

Plante & Moran, PLLC

Results of the Audit - SAS 114

December 4, 2008

To the Board of Trustees
Township of Macomb

We have audited the financial statements of the Township of Macomb (the "Township") for the year ended June 30, 2008 and have issued our report thereon dated December 4, 2008. Professional standards require that we provide you with the following information related to our audit.

Overview

As the independent auditors of the Township, we wish to thank the administration and the financial staff for the assistance provided to us during the course of the audit. As an overall comment, we were very pleased with the condition of the financial books and records.

For this year's audit, the American Institute of Certified Public Accountants (AICPA) requires additional specific wording regarding various aspects of the audit to "those charged with governance." Many of the items which follow in this letter are simply a requirement of this new audit standard.

Our Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated October 10, 2008, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. We are responsible for planning and performing the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement. As part of our audit, we considered the internal control of the Township of Macomb. Our consideration of internal control was solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters and our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on September 4, 2008.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Township of Macomb are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2008.

We noted no transactions entered into by the Township during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred. Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements are the disclosures for the Fire Fighters' Pension Fund and the other postemployment benefit disclosures.

Management's estimate of the Township's future obligations is based on actuarial assumptions. The actuarial assumptions involve estimates of the value of the reported amounts and assumptions about the probability of occurrence of events into the future.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. The attached schedule summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For the purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management's Representations

We have requested certain representations from management that are included in the management representation letter dated December 4, 2008.

Management's Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Township's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

In the normal course of our professional association with the Township, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the Township, and business plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition of our retention as the Township's auditors.
